Nationality: Indian | Visa Status: Dependent Visa (Husband Visa) | Availability: Immediate

### PROFESSIONAL SUMMARY

---

Experienced PHP Developer with 5+ years of hands-on experience developing, and maintaining scalable, high-performance web applications using PHP, Laravel, CodeIgniter, and MySQL. Skilled in building secure, efficient back-end systems, integrating third-party services, and developing RESTful APIs. Strong foundation in front-end technologies including HTML and CSS, with ongoing learning in Vue.js to expand full-stack capabilities. Proficient in Agile/Scrum methodologies and version control (Git). Returning from parental leave with renewed focus and enthusiasm, ready to make immediate contributions to a forward-thinking development team.

### SKILLS

---

- **Languages:** PHP, HTML/CSS
- **Frameworks:** Laravel , CodeIgniter , Vue.js(learning)
- **Databases:** MySQL
- **Tools & Platform:** Git, Postman
- **Others:** RESTful APIs, AJAX, jQuery

### WORK EXPERIENCE

---

#### Career Break - Parental Leave

Feb 2023 - Present

- Took a planned career break to focus on the birth and care of my first child.
- Maintained technical proficiency through self-paced learning, including:
  - Updated skills in Laravel (latest version) and CodeIgniter 4 through tutorials and sample projects.
  - Began exploring Vue.js to strengthen modern front-end development capabilities.

#### PHP Developer

Dec 2022 - Jan 2023

#### Lamp Media Tech, Dubai, UAE

- Built and maintained dynamic web applications using CodeIgniter and MySQL.
- Worked closely with project manager from planning stages to deployment to deliver on-target projects.
- Collaborated with front-end developers to ensure seamless integration of server-side logic with front-end design and user interface.
- Coordinated with the SEO team to implement strategies that enhance website visibility and improve search engine rankings.

**PHP Developer**  
**Alwafaa Group, Dubai, UAE**

**May 2019 - Jul 2022**

- Worked with Laravel and CodeIgniter frameworks to develop and maintain web applications.
- Led a team of 4 developers in an Agile environment for an E-learning project, delivering all sprint goals on time with a 98% completion rate.
- Created and maintained 10+ web applications.
- Developed a unified backend system for the company's eCommerce platform, reducing admin product management time by 40%, significantly improving efficiency.
- Integrated third-party APIs, including payment gateways and social media login (Google, Facebook), to enhance website functionality.
- Collaborated in an Agile team, actively participating in sprint planning, daily stand-ups, and sprint reviews, consistently meeting deadlines and delivering project milestones.
- Developed 9+ RESTful APIs for mobile applications, improving data exchange efficiency.
- Provided mentorship to 3 junior developers, supporting their technical growth and onboarding.

**Junior PHP Developer**  
**Envigo Technologies, Kerala, India**

**Jun 2015 - Apr 2018**

- Designed, developed, and maintained web applications using the Laravel framework.
- Worked in all stages of the software development lifecycle (SDLC), from gathering requirements to production releases, ensuring timely delivery of features.
- Coordinated with team members to develop and optimize database structures.
- Contributed 30% to software field testing efforts, validating and optimizing the performance and functionality of developed projects.
- Managed code versioning using Git and collaborated with team members on platforms such as GitHub which reduced deployment time by 70%.
