PROFESSIONAL SUMMARY

Experienced PHP Developer with over 5 years of expertise in building, deploying, and maintaining high-performance web applications. Proficient in Laravel and CodeIgniter frameworks, with a strong track record of delivering scalable and secure back-end solutions. Strong knowledge of MySQL database management and skilled in developing RESTful APIs and integrating third-party services. Adept at working in Agile environments and collaborating across cross-functional teams. Ready to return after parental leave with renewed focus and energy, eager to contribute to an innovative development team.

SKILLS

- **Languages:** PHP, HTML/CSS
- **Frameworks:** Laravel , CodeIgniter , Vue.js(learning)
- **Databases:** MySQL
- **Tools & Platform:** Git, Postman
- **Others:** RESTful APIs, AJAX, jQuery

WORK EXPERIENCE

Career Break - Parental Leave   **Feb 2023 - Present**

- Took a planned career break to focus on the birth and care of my first child. During this time, I stayed engaged with the tech industry through self-paced learning and worked on small sample projects using the latest versions of Laravel and CodeIgniter. Also began learning Vue.js to develop full-stack proficiency, ensuring my skills remained up-to-date in preparation for my return to work.

PHP Developer
Lamp Media Tech, Dubai, UAE   **Dec 2022 - Jan 2023**

- Built and maintained dynamic web applications using CodeIgniter and MySQL.
- Worked closely with project manager from planning stages to deployment to deliver on-target projects.
- Collaborated with front-end developers to ensure seamless integration of server-side logic with front-end design and user interface.
- Coordinated with the SEO team to implement strategies that enhance website visibility and improve search engine rankings.

PHP Developer   **May 2019 - Jul 2022**
Alwafaa Group, Dubai, UAE

- Worked with Laravel and CodeIgniter frameworks to develop and maintain web applications.
- Led a team of 4 developers in an Agile environment for an E-learning project, delivering all sprint goals on time with a 98% completion rate.
- Created and maintained 10+ web applications.
- Developed a unified backend system for the company's eCommerce platform, reducing admin product management time by 40%, significantly improving efficiency.
- Integrated third-party APIs, including payment gateways and social media login systems, to enhance website functionality.
- Collaborated in an Agile team, actively participating in sprint planning, daily stand-ups, and sprint reviews, consistently meeting deadlines and delivering project milestones.
- Developed and deployed RESTful APIs for 9+ mobile applications.
- Provided mentorship to 3 junior developers, supporting their technical growth and onboarding.

Junior PHP Developer   **Jun 2015 - Apr 2018**
Emvigo Technologies, Kerala, India

- Designed, developed, and maintained web applications using the Laravel framework.
- Worked throughout the systems development lifecycle, from requirement gathering to production releases, ensuring timely and efficient project delivery.
- Coordinated with team members to develop and optimize database structures.
- Contributed 30% to software field testing efforts, validating and optimizing the performance and functionality of developed projects.
- Managed code versioning using Git and collaborated with team members on platforms such as GitHub which reduced deployment time by 70%
